Dear member,

It is my pleasure to inform you that the 'Executive Committee' has been put into function to plan and promote activities of the Association in future.

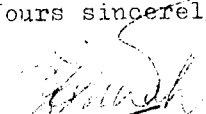

As you may probably know, the history of the Association, bearing the above title, is rather short. The idea to form the 'Electrical and Electronic Engineering Association' in conjunction with the H.K.T.C. Old Students Union originates from the College. It is believed that in doing so, closer liaison among members of the electrical engineering department and with the College can be achieved. Past students of the electrical engineering department were therefore summoned together on the 5th March, 1966 to form the first provisional working committee. A sub-committee was formed out of the working committee to draft the Association's constitution and other relevant matters. The proposed constitution together with the application were submitted to the authority concerned for approval. After several months, the Association was eventually registered in August 1966. Since then, we were legally allowed to enrol members. At the same time, a preparatory committee was formed to plan and prepare for the formal inauguration of the Association.

The 'inauguration dinner' was held in the Keswick Hall of H.K.T.C. in the evening of 10th December, 1966. A total of 108 people, including Dr. Ching and Mr. C.L. Leung, our guests of honour, took part in the dinner. Also in the dinner, an Executive Committee comprised of 16 members was elected for the session 1966/67. These 16 members came from four sections.

The first formal committee meeting was held on the 28th January, 1967 at which the office bearers were elected. At the second meeting held on 13th February, plans of activities for the current year were put forward for discussion. Later, an activity sub-committee was immediately formed to take care of all the activities scheduled; details will be forwarded to you in due course. But I can assure you that the activities the committee had planned will not only cover picnics etc., but will also include visits to industrial concerns and technical lectures. I hope these will suit the taste of all members.

Throughout this year, members have shown endless effort and enthusiasm in the affairs of the Association and it is only based on these the Association is founded. Now the Association is still in its infancy, every care and support from its members are needed so as to bring it onto a solid foundation. I, on behalf of the Executive Committee, to pledge to do our best to promote the affair of the Association.

Yours sincerely,

  
Lee Hon Wah  
Chairman
